# Pre-Congress Workshops

## 19<sup>th</sup> JUNE 2013, WEDNESDAY

### PRE-CONGRESS WORKSHOP 1 | Obstructive Sleep Apnea and Anaesthesia

**Venue: Colosseum 1, Pullman Kuching**

#### WELCOME

This pre-congress workshop is organised by the Special Interest Groups of Asia Society in Anesthesia and Sleep Medicine (ASASM) and the College of Anaesthesiologists, Academy of Medicine of Malaysia together with the Society of Anesthesia and Sleep Medicine (SASM). The goal of this meeting is to learn the latest developments of obstructive sleep apnea and other sleep disorders, and how to improve the perioperative care of patients with obstructive sleep apnea.

#### LEARNING OBJECTIVES:

After participating in this educational activity, the participants will be able to:

1. Understand the pathogenesis of upper airway obstruction in Obstructive Sleep Apnea
2. Appreciate the impact of Obstructive Sleep Apnea on health and economics
3. Understand the perioperative complications in Obstructive Sleep Apnea patients
4. Able to assess, screen and manage patients during the perioperative period

#### WORKSHOP CO-DIRECTORS

**Professor Dato' Dr Wang Chew Yin, MBChB**

Convenor, SIG in Anesthesia and Sleep Medicine

College of Anaesthesiologists, AMM

**Professor Frances Chung, MBBS**

President-Elect

Society of Anesthesia and Sleep Medicine

0745 – 0840

Registration

0840 – 0845

Introduction **Wang Chew Yin, MBChB (Malaysia)**

**Moderator: Frances Chung, MBBS**

0845 – 0930

Keynote: The Health and Economic Impacts of Sleep Disordered Breathing  
**David Hillman, MBBS (Australia)**

0930 – 1000

Pathophysiology of Upper Airway Obstruction in Patients with Obstructive Sleep Apnea  
**Shiroh Isono, MD (Japan)**

1000 – 1015

Q & A Session

1015 – 1045

Break

**Moderator: Wang Chew Yin, MBChB**

1045 – 1115

Surgery and the Upper Airway **Yap Yoke Yeow, MBBS (Malaysia)**

1115 – 1145

Anaesthesia: Managing the Risks in Patients with Obstructive Sleep Apnea  
**Norman Bolden, MD (USA)**

1145 – 1215

Consequences of Unrecognised Obstructive Sleep Apnea **Matthew Chan, MBBS (Hong Kong)**

1215 – 1230

Q & A Session

1230 – 1330

Lunch

**Moderator: Norman Bolden, MD**

1330 – 1400

Obstructive Sleep Apnea (OSA) in Paediatric Patients: Anaesthetic Implications  
**Shahani J Menghraj (Singapore)**

1400 – 1430

Screening Patients for Obstructive Sleep Apnea: Experience from Preoperative Evaluation  
**Frances Chung, MBBS (Canada)**

1430 – 1445

Q & A Session

1445 – 1515

Refreshment

1515 – 1700

CONCURRENT SESSIONS

**a. Facilitator: David Hillman, MD**

Hands-on Workshop (Limited to 25 participants)

This is an introductory hands-on session with Continuous Positive Airway Pressure (CPAP) and non-invasive ventilation equipment

**b. • Tips & Pitfalls in Ambulatory Sleep Monitoring Yap Yoke Yeow, MBBS (Malaysia)**

• Hands-on session for Ambulatory Sleep Monitoring Device (Limited to 50 participants)

**Brett McLaren, Master of Sleep Science in Medicine (Australia)**

# Pre-Congress Workshops

## 19<sup>th</sup> JUNE 2013, WEDNESDAY [continued]

### PRE-CONGRESS WORKSHOP 2 | Difficult Airway Management

**Venue: Machu Picchu, Pullman Kuching**

**Facilitators: Muhammad Maaya, Ina Ismiarti Shariffuddin, Wendy Teoh, Jaseemuddin Abu Bakar, Rhendra Hardy Mohamad Zaini, Vinodh Suppiah**

Airway management is part and parcel of an anaesthesiologist's occupation. Most of the time, the patients' airway can be managed without much problem. In certain circumstances, the anaesthesiologist faces challenging airway management, either expected or worse, unexpected. Various devices are in the market nowadays to assist the anaesthesiologist in such matter. This workshop comprises lectures, hands-on stations and case discussions. The two lectures will touch on the various difficult airway gadgets and the management of "Can't Intubate, Can't Ventilate" situation. The hands-on stations will expose the participants to some of the airway management devices currently available in the market. Finally, there will be a few case scenarios related to the difficult airway up for discussion.

**Workshop Objectives:** Upon successful completion of the course, the participant will be able to:

1. Anticipate and manage the difficult airway
2. Identify and manage the failed airway
3. Understand the special case of the failed airway in obstetrics
4. Perform an awake intubation in the predicted difficult airway

|             |   |
|-------------|---|
| 0830 – 0900 | Registration  |
| 0900 – 0945 | Lecture 1: Gadgets and Adjuncts for the Difficult Airway <b>Muhammad Maaya</b>  |
| 0945 – 1015 | Tea   |
| 1015 – 1045 | Lecture 2: Can't Intubate, Can't Ventilate <b>Ina Ismiarti Shariffuddin</b>   |
| 1045 – 1245 | Hands-on Session<br>Participants are divided into small groups to rotate through the following stations<br>(20 minutes spent at each station) <ol style="list-style-type: none"><li>1. Bonfils (Storz) + C-Mac (Storz)</li><li>2. Intubation Fibrescope (Storz), with Aintree Intubation Catheter (Cook) and Fastrach (Aerotrach)</li><li>3. Glidescope (Pall-Thai)</li><li>4. Mini-Trach (Primed) with Jet Ventilation+ King Vision Video Laryngoscope (Primed)</li><li>5. Cricothyrotomy (Cook) with Jet Ventilation</li><li>6. Ambu-aScope (Norse Crown)</li><li>7. McGrath Video Laryngoscope (Heal)</li><li>8. Pentax Portable Airway Scope (AVRO)</li></ol> (6 sessions before lunch, 2 sessions after lunch) |
| 1245 – 1345 | Lunch   |
| 1345 – 1425 | Continue hands-on session   |
| 1425 – 1525 | Case scenarios discussion: 3 cases, 20 minutes each<br><b>Jaseemuddin Abu Bakar, Rhendra Hardy Mohamad Zaini, Vinodh Suppiah, Wendy Teoh</b>  |
| 1525 – 1545 | Q&A   |
| 1545 – 1615 | Tea   |

# Pre-Congress Workshops

## 19<sup>th</sup> JUNE 2013, WEDNESDAY [continued]

### PRE-CONGRESS WORKSHOP 3 | Ultrasound Guided Pain Blocks

**Venue: Colosseum 2, Pullman Kuching**

**Speakers and Workshop Facilitators : Carina Li, Dong Eon Moon, Anwar Samhari Mat Arshad, Gautam Das, Ng Kim Swan, Lai Hou Yee**

**Coordinator: Ng Kim Swan**

This workshop is for those who are already familiar with ultrasound guided peripheral nerve blocks, and will teach participants on the use of ultrasonography for chronic pain interventions, including musculoskeletal injections, truncal blocks and neuraxial blocks. A comparison of ultrasound compared to fluoroscopy for chronic pain blocks will be included.

Ultrasound imaging for a number of interventional procedures will be demonstrated on volunteers, and participants will have the opportunity to have hands-on experience with scanning at different stations, including the following:

1. Spine and neuraxis – lumbosacral spine, sacroiliac joint
2. Truncal blocks – paravertebral, intercostal and TAP block, ilioinguinal and iliohypogastric nerve blocks
3. Shoulder, hip and knee – intra-articular and bursa injections, including suprascapular nerve block
4. Head and neck – greater and third occipital nerve block; cervical plexus block; stellate ganglion block; supraorbital, infraorbital and mental nerve blocks.
5. Cervical and Thoracolumbar region – facet and medial branch blocks and nerve root injections
6. Myofascial blocks – piriformis and gluteal muscles and other trigger point injections

|             |  |
|-------------|--|
| 0830 – 0900 | Registration   |
| 0900 – 0905 | Welcome and Introduction to Workshop   |
| 0905 – 0935 | Basic Ultrasonography in Chronic Pain Management   |
| 0935 – 1005 | Head and Neck blocks   |
| 1005 – 1030 | Ultrasound Compared to Fluoroscopy for Chronic Pain Blocks   |
| 1030 – 1100 | Coffee   |
| 1100 – 1300 | Hands-on Stations 1 – 3  |
|             | <u>Station 1 : Spine / Neuraxis</u>  |
|             | – Water Phantom: Lumbosacral, Sacroiliac Joint   |
|             | – Volunteer: Caudal and Lumbosacral Spine  |
|             | <u>Station 2 : Truncal Blocks</u>  |
|             | – Paravertebral, Intercostal, TAP, Ilioinguinal and Iliohypogastric Nerves, Lateral Cutaneous Nerve of Thigh |
|             | <u>Station 3 : Joints</u>  |
|             | – Suprascapular Nerve, Shoulder, Hip, Knee   |
| 1300 – 1400 | Lunch  |
| 1400 – 1600 | Hands-on Stations 4 – 6  |
|             | <u>Station 4 : Head and Neck</u>   |
|             | – GON, TON, Facial Nerves, Cervical Plexus (Deep and Superficial), Stellate Ganglion                         |
|             | <u>Station 5 : Medial Branch and Facet Joints</u>  |
|             | – Cervical, Thoracic, Lumbosacral and SIJ  |
|             | <u>Station 6 : Myofascial Blocks</u>   |
|             | – Piriformis, Other Myofascial Blocks  |
| 1600 – 1630 | Q&A  |
| 1630        | Tea  |

# Pre-Congress Workshops

## 19<sup>th</sup> JUNE 2013, WEDNESDAY [continued]

### PRE-CONGRESS WORKSHOP 4 | Basic Transthoracic Echocardiography

**Venue: Taj Mahal, Pullman Kuching**

**Facilitators: Adi Osman, Mahathar Wahab, Julina Md Noor, Ahmad Afifi M Arshad, Shaik Farid Abdull Wahab**

#### INTRODUCTION

This compact one-day basic echocardiography workshop is designed for healthcare providers who manage patients in the critical care setting. It is structured with lectures, interactive case studies and hands-on stations.

The workshop is conducted by certified World Interactive Network Focused on Critical Ultrasound (WINFOCUS) trainers.

#### OBJECTIVES

To educate healthcare professionals on how to perform and interpret basic echocardiography examinations in the critical care setting.

1. Discuss the basic fundamentals of ultrasound physics/instrumentation and recognise image artifacts.
2. Introduction to basic echocardiography view
3. Integrate the use of basic echocardiography in the critical care setting

|             |   |
|-------------|---|
|             | Registration  |
| 0900 – 0915 | Welcome Address <i>Adi Osman / Shahrizan Fathil</i> |
| 0915 – 0945 | Physics of Ultrasonography                          |
| 0945 – 1015 | Basic Echocardiography View                         |
| 1015 – 1045 | Shock   |
| 1045 – 1110 | Tea   |
| 1110 – 1140 | Fluid Status and Responsiveness                     |
| 1140 – 1210 | Echodynamics  |
| 1210 – 1240 | Resuscitation                                       |
| 1240 – 1400 | Lunch   |
| 1400 – 1630 | PRACTICAL STATIONS                                  |
|             | Station 1: Parasternal Long Axis View (PLAX)        |
|             | Station 2: Short Axis View (SAX)                    |
|             | Station 3: Apical 4 Chamber View (A4C)              |
|             | Station 4: Subcostal View                           |
| 1630        | Tea & Closing Remarks                               |

# Pre-Congress Workshops

## 19<sup>th</sup> JUNE 2013, WEDNESDAY [continued]

### PRE-CONGRESS WORKSHOP 5 | Ultrasound Guided Regional Anaesthesia

**Venue:** Sarawak General Hospital

**Facilitators :** Azrin Mohd Azidin, Julina Santhi Johami, Amiruddin Nik Mohamed Kamil, Mafeitzeral Mamat, Lim Teng Cheow, Mohd Shahnaz Hasan

**Organised by the Malaysian Special Interest Group In Regional Anaesthesia (MSIGRA)**

This comprehensive one-day Ultrasound Guided Regional Anaesthesia workshop will cater for regional anaesthesia enthusiasts offering updates and developments in this ever-evolving field. It is designed for practitioners of basic to intermediate expertise that incorporate, or wish to incorporate the use of real-time ultrasound imaging in their practice.

This workshop will provide its participants with the relevant and necessary information to increase knowledge and improve block performance. It will also highlight the principles of ultrasound towards the safe practice of regional anaesthesia.

The workshop will include hands-on session and live demonstration on practical sonoanatomy and block performance of the upper and lower limbs, trunk and central neuraxial areas plus risk reduction in regional anaesthesia. Participants will have the opportunity to scan live models/volunteers and phantom models during the afternoon session.

### PRE-CONGRESS WORKSHOP 6 | TIVA/TCI

**Venue:** Sarawak General Hospital

**Facilitators :** Michael Irwin, Lim Thiam Aun

**Coordinator:** Marzida Mansor

**In collaboration with:** Abbvie Sdn Bhd & Fresenius Kabi

Total Intravenous Anaesthesia (TIVA) is regaining its popularity once again due to development of newer drugs, better understanding of the pharmacology of current drugs and development of better drug delivery systems. With the increasing demands of complex surgeries and complicated patients, TIVA provides an alternative technique for anaesthetists faced with these difficult situations.

This one-day workshop aims to provide an opportunity for participants to discover new technology and safer techniques in anaesthesia, and to empower participants who would like to develop an interest in TIVA. The workshop will be led by anaesthetists experienced in the field of intravenous anaesthesia who will introduce participants to pharmacology of newer TIVA drugs and conduct a live case demonstration showing the application of TIVA in anaesthesia. Participants will be provided with hands-on experience on the available drug delivery systems [Target Controlled Infusion (TCI) pumps] with the TIVA expert. Case discussions and forums will be held at the end of the workshop for participants to understand the wide-ranging applications of TIVA in anaesthetic practice.

# Programme | 20<sup>th</sup> June 2013, Thursday
